The City of Kalipsell has a tree ordinance in place which governs the trees in and on the public right-of-way. In order to encourage the planting of trees, the City of Kalispell has established a cost share program for right-of-way planting adjacent residential properties. The City has appropriated funds for this program and the program will be administered on a first come first serve basis.

To get started, please fill out this brochure and return to the Parks and Recreation Department. Once your application is received a site visit will be scheduled to evaluate the site (spacing, species, etc) to determine if it qualifies for the 50/50 planting program. If approved you will be issued a voucher to take to the city's approved tree planting contractor. Once the homeowner's 50% responsibility is paid to the contractor, the contractor will work to schedule the planting.

Trees will be planted in either fall or spring. Trees will be planted by a contractor to meet the specifications of the tree ordinance (spacing, species, etc) and in accordance with ANSI A300 planting standards. All nursery stock will meet the American Standard for Nursery Stock ANSI Z60.1-2014 standards.

Once planted it will be the responsibility of the adjacent landowner to water and care for the tree to help ensure survivability. All trees in the public right-of-way are the property of the City.

If you have any questions or concerns please do not hesitate to call, 758-7716.
